

Mould Remover

Targets and removes mould spores, fungus, algae and moss from grout joints, tiles, silicone surfaces and other damp places. Antibacterial properties help to prevent re-growth.

**Grout Joints / Silicone / Natural Stone
Other Damp Places / Plaster
Antibacterial / Bleaching Action
Internal / External**

DESCRIPTION

Formulated to cling to surfaces and remove mould spores, fungus, algae and moss from grout joints, tiles, silicone surfaces and other damp places. Antibacterial properties help to prevent re-growth. Ideal for bathrooms and kitchens. Suitable for internal and external use. Bleaching action helps to restore white grouting to its original colour.

DIRECTIONS

SHAKE WELL BEFORE USE. This product contains bleaching action, if in doubt try on an inconspicuous area before general application. Surfaces to be treated should be completely dry before application. Hold upright and spray 5-10cm from surface. Leave for 45 minutes. Apply a little water and agitate with a stiff brush to release dirt and grime. Rinse thoroughly using a sponge and water.

Stubborn stains and most silicones or elastic grouting will require a longer treatment, in which case apply and leave on surfaces overnight. In case of contact with metals, fabrics and painted surfaces rinse with water immediately. **DO NOT USE WITH ACID BASED RESIDUAL GROUT REMOVERS OR OTHER ACID BASED CLEANERS.** Can be used on natural stone and coloured grouting, however always test on an inconspicuous area before general application.

COVERAGE

5-15m² depending on size of tile.

STORAGE

Store in a cool, dry, frost-free environment.

Important: FOOD ESTABLISHMENTS - Equipment and surfaces subjected to direct food contact must be thoroughly rinsed with potable water after cleaning with this product. Avoid contamination of food during use. Do not store in food processing or food storage area.

HEALTH & SAFETY

Store locked up. Keep out of reach of children. Wash contaminated skin thoroughly after handling. **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents and container in accordance with local regulations. Contact with acids liberates toxic gas. **Warning!** Do not use together with other products. May release dangerous gases (chlorine). **Contains:** <5% anionic surfactants, <5% non-ionic surfactants, <5% Sodium Hypochlorite. **Ingredients:** www.rocatex.com/detergents.

This information is offered without guarantee. The material should be used so as to take account of the local conditions and the surfaces to be treated. In case of doubt, the product should be tried out in an inconspicuous area.
